An Ocala woman who claimed her boyfriend raped her was arrested Thursday on a warrant for making false report of a crime.

OCALA - An Ocala woman who claimed her boyfriend raped her was arrested Thursday on a warrant for making false report of a crime.

According to Marion County Sheriff's Office reports, deputies went to a motel on East Silver Springs Boulevard on Aug. 12, where Loretta Duley, 38, said her boyfriend kicked her out of the room. She said there was no physical violence. The man let her back in. The officials went back the next morning as Duley alleged she was a victim of domestic violence. No one was arrested. Duley was asked to leave the motel. In both incidents, Duley never mentioned any sexual battery.

Later on Aug. 13, deputies were called to Munroe Regional Medical Center and met with Duley, who said the man had raped her the day before. When asked why she didn't report it, she said she "forgot" and was "sleepy and tired."

Detective Felix Rodriguez interviewed Duley and she said the man raped her.

Rodriguez also interviewed the man, who showed him text messages between himself and Duley in which Duley asked him to take her back and said if he did not she would go to a hospital and file a rape report and get a rape kit.

According to the detective's report, the man texted that they were not going to work it out. Duley asked him via text to reconsider and take her back, but he refused.

After seeing the text messages, the detective obtained a warrant for Duley and she was arrested and taken to the Marion County Jail, where she remained Friday on \$500 bond.
