## Teen Girl Lied About Springfield Aquatic

### Centre Rape That Never Happened

July 12, 2018

Police have revealed that the alleged rape of a teen girl that occurred at Springfield Aquatic Center actually never happened. The girl said she lied and made up the incident.

**The sexual assault reportedly occurred on June 30**

The girl said she was sexually assaulted at the Splash Zone Aquatic Center on the 30th of June 2018.

She, however, later said she made up the incident and has since been charged with filing a report she knew to be false.

“We have determined that a sexual assault did not occur at the Splash Zone,” Springfield police Chief Lee Graf said.

“This young person’s false statements caused needless fears and concerns amongst our citizens and pulled our officers and detectives away from the business of helping actual victims of crimes.”
